

For Immediate Release

**Westbank Branch of the Okanagan Regional Library Exhibition:
Digital Worlds — digitalartokanagan.com**

Westbank, BC, July 27, 2011— digitalartokanagan.com, the online community of digital artists in the Okanagan valley, is pleased to present a selection of their work in a special exhibit beginning July 27th and running through September 20th, 2011 at the Westbank Regional Library (#31, 2484 Main Street, (Hwy 97S) www.orl.bc.ca/branches/westbank).

It's cutting-edge; using computer software for drawing and painting and the latest photographic technology and digital printing techniques to create art: and what a better place to engage and educate the public than a centre for learning such as the library. There are a variety of types of digital art in a vast array of creative styles with many methods used to render the final artwork. Visit this amazing show comprised of the work of nine local digital artists; and experience the realm of the "Digital Art World."

The show's curator is Ed Eaton, a visionary 3D-modelling artist creating dynamic pieces that transport the viewer into another time; combining real-world objects with other-world imagination.
